

SUOMEN
OLYMPIAKOMITEA

14th August, 2009

Dear NutraSport '09 -exhibition organizer,

Finnish Olympic Committee promotes and develops ethically sustainable and successful Finnish elite sports.

The winter sport is traditionally very well developed in Finland. We have a lot of experience of sport and business in our business and sport organization fields.

Snowpolis Ltd works actively in the field of the sport technology, and offers services connecting nutrition and wellbeing as well. The technological solutions enable to alter seasonal sport to the year around, which increases the employment and the budget and wellbeing of the area. Snowpolis is also cooperating in Finnish-Russian construction projects aiming to Sochi Olympic Games 2014.

We believe that the participation of Snowpolis to the exhibition is useful to the Russian exhibitor and the visitors. The experience of Vuokatti and Snowpolis helps the Russian areas. And it increases the interest of the exhibitions, the exchange of the experiences and making contacts.

Finnish Olympic Committee supports in all ways the participation of Snowpolis Ltd to the NutraSport '09 -exhibition.

Yours sincerely,

Jouko Purontakanen
Secretary General
Finnish Olympic Committee
